

Amazon SDE1 Interview Guide

01 — DSA Practice Platforms

LeetCode

The gold standard for interview prep. Focus on Medium and Hard problems.

leetcode.com/problemset — Full problem set

leetcode.com/company/amazon — Amazon tagged questions

GeeksforGeeks (GFG)

Best for concept revision and theory — trees, graphs, DP, sorting.

[geeksforgeeks.org/data-structures](https://www.geeksforgeeks.org/data-structures)

Striver's SDE Sheet (A2Z DSA Sheet)

Most structured sheet out there. Covers all patterns topic-by-topic. Highly recommended.

takeuforward.org — Striver SDE Sheet

Key DSA Patterns to Focus On:

Pattern	Why it matters for Amazon
Arrays & Sliding Window	Very common in OA and phone screen
Trees (BFS/DFS)	Asked in almost every onsite round
Graphs	Traversal, shortest path, islands problems
Dynamic Programming	Medium-hard OA questions
Linked Lists	Basic but tested in early rounds
Binary Search	Often hidden inside harder problems
Heaps & Priority Queues	Top K problems — Amazon favourite

02 — Amazon's 16 Leadership Principles

The Bar Raiser round is entirely based on these. Know them cold.

amazon.jobs — Official Leadership Principles

#	Principle	#	Principle
1	Customer Obsession	9	Bias for Action
2	Ownership	10	Frugality
3	Invent & Simplify	11	Earn Trust
4	Are Right, A Lot	12	Dive Deep
5	Learn & Be Curious	13	Have Backbone; Disagree & Commit
6	Hire & Develop the Best	14	Deliver Results

7	Insist on Highest Standards	15	Strive to be Earth's Best Employer
8	Think Big	16	Success & Scale Bring Responsibility

03 — STAR Method (for Behavioral Rounds)

Every behavioral answer at Amazon should follow STAR. Keep each part concise.

S	Situation	Set the context. 1-2 sentences max.
T	Task	What was YOUR responsibility in it?
A	Action	What did YOU specifically do? This is the most important part.
R	Result	Quantify if possible. What changed because of your action?

Pro tip: Prepare 6-8 stories from your experience and map each to multiple LPs. One good story can answer 3-4 different questions.

04 — Past Interview Experiences

Read at least 10-15 real experiences before your interview. Patterns repeat.
